Kennedy Equi Products

KEP Bridle

This exclusive KEP bridle has been added to the Kennedy Equi Products bridle collection with an unrivalled finish and elegant design. The bridle is made from the finest quality certified English bridle leather. The fittings are polished brass or stainless steel combined.

The thickly padded Headpiece and noseband are provided to allow for smooth, even tightening without harming the horse.

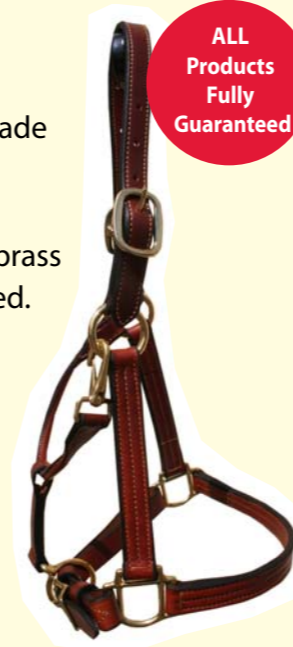

A unique feature is the combined (flash) noseband loop which can be removed if not required. Comes complete with flash strap and leather/ web reins.

Available in pony, cob and full size.
 Colours available: Black & Brown.

KEP Headcollar

The KEP headcollar with reinforced stitchings is made from the finest quality certified English leather. The fittings are polished brass or stainless steel combined.

KEP Stud Guard

The KEP Stud Guard is made from the finest quality certified English leather.

Available in pony, cob and full size.
 Colours available: Black & Brown.

Brass buckle and safety quick release clip for added safety in case of emergency.

Kennedy Equi Products

EasyTap™

This high quality EasyTap™ has a specially designed handle to give maximum grip and comfort in both wet and dry conditions.

The Easy Tap™ is designed with an automatic locating pilot and a leading cutting edge. This eliminates cross threading & refurbishes damaged threads and leaves a clean threaded stud hole.

EasySpanner™

This user-friendly EasySpanner™ is designed to protect the hands from the shoe & the studs.

It has a special non-slip grip and high tensile steel head.

Kennedy Equi Products

EasyKit™

Treat yourself or a friend to the ideal present with an EasyKit™ of your choice or the unique patented EasySpur™ with its revolutionary non-marking wheel end.

ALL Products Fully Guaranteed

AND

16, 24, 32 or 40 Stainless Steel Studs (non-rust)
(Choose your own studs)

Stud Selection Guide

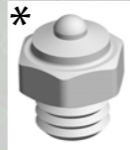

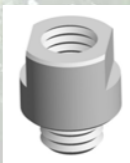

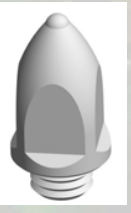

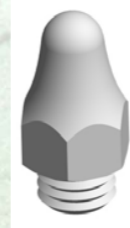

Example: 16, 20, 25mm means Ground Penetration

- (1) Pointed Studs**
Firm to Hard Ground
- (2) SKD Studs**
Firm to Yielding Ground
We recommend you use SKD Studs on the inside with pointed studs of the same length on the outside
- (3) Square Studs**
Soft Ground on Top, Firm underneath
- (4) Oval Studs**
Soft Ground
- (5) Dome Studs**
Sand & Polo. Suitable for Very Soft Ground
- (6) Sleeper Studs**
Suitable for fitting the night before or for out in the paddock - as they are stainless steel. They will not rust into the shoe.
- (7) Road Studs**
A shallow stud fitted with Genuine Tungsten inserts for maximum grip on the road.

Note:- Tests have shown that the use of Studs while jumping on sand surfaces improves the horses balance and gives better grip & confidence.

Stainless Steel (non - rust) Stud Selection
